### About the Wallom4 lift

The Wallom4 is built using a high-quality, solid lift system with a linear actuator:

- Smooth lift system
- Robust design
- Lifetime lift (cycle up & down): 20.000 times
- Easily passes through narrow doors and paths (75cm)

### About the Wallom4 castors

CTOUCH knows that if you choose a mobile lift it should be easy to manoeuvre the unit. The swivel castors we use on the Wallom4, all of which have a brake:

- Are made of high-quality steel
- 4 inch wheels turn & roll smoothly, almost soundless
- Are corrosion protected, for a long lifespan
- All 4 wheels have locking brakes
